About the Camp:

This trumpet camp is meant to be an exploration of basic trumpet playing concepts taken from Stamp, Chicowitz, Thompson, Black, and many others. Daily classes are taught in a group setting so that we all may learn from each other. Private lessons are available and suggested to enhance the student's experience. Each student will have the opportunity to perform in front of his or her peers on a daily basis. Depending on interest, the camp will end with a recital for family and friends and each student is invited to play. The camp is open to all high school and talented middle school students.
